# FABRIC CARE RANGE

## DESCRIPTION

- Ranipal Powder is a household as well as an industrial product.
- Useful for whitening & brightening of white garments
- With OB Power (OB - Optical Brighteners) which makes the white clothes appear more whiter and brighter.
- Once the foil seal of the container is opened, we find Ranipal powder is a light pastel green colour powder. When it is put in water, it dissolves and water turns bluish in colour.
- Ranipal Powder is added in the last rinse of water after washing the white garments (Last rinse means washing white garments with clean water to remove soap or detergent.)
- Proportion - Mix 1/2 teaspoon (approx. 2 grams) of Ranipal Powder in 1/2 bucket (6-7 litres) of water. Soak 2 medium sized washed garments only for 10mins. Squeeze and dry.
- Used to whiten & brighten white garments such as doctors coats, nurses uniforms, chemistry lab.coats, cricketers outfits, navy uniforms, school shirts & socks, P.T.Uniforms, chef's coats, white bedsheets and pillows used in hotels and hospitals, dhotis, turbans, kurtas, kurtis, dupattas, salwars, pyjamas, t-shirts, etc.
- Target Institutions-laundries, textile industries, hotels, hospitals, sports clubs, schools, general stores, hobby shops (mostly visited by housewives), soap shops & kirana stores.

## F.A.Q.S

### RANGEELA GLITTER

**Q. Is Rangeela Glitter safe to use by children ?**

Ans Rangeela Glitter is Non-toxic and conforms to European Standards (CE certified) & hence it is safe to use by children.

**Q. On which surfaces can we use Rangeela Glitter ?**

Ans We can use Rangeela Glitter on a variety of surfaces such as paper, earthen pots & diyas, hand crafted items, etc. It is ideal for decorating most art & craft items.

**Q. When can we use Rangeela Glitter ?**

Ans We can use Rangeela Glitter to highlight paintings, decorate greeting cards, earthenware pots & diyas, hand crafted items. We can use it for decorative writing, outlining or to fill designs.

**Q. Can we use Rangeela Glitter to fill large areas? If yes, how ?**

Ans Yes. We can use Rangeela Glitter to fill large areas. We should spread Rangeela Glitter by using a brush to fill in large areas of designs. The scattered glitter particles add a dazzle to your painted designs.

**Q. Name the 6 shades available in the Rangeela Glitter - Star Pack-30ml ?**

Ans The 6 shades are Silver, Gold, Green, Blue, Red & Rangoli.

**Q. Which new shade is added in Rangeela Glitter ?**

Ans Rangoli is the new shade added in Rangeela Glitter. Magenta shade is removed.

**Q. Is Rangeela Glitter washable ?**

Ans Yes. It is washable.

**Q. Can we use Rangeela Glitter on fabric ?**

Ans Yes. We can use Rangeela Gitter on fabric, **but only for decoration.** As this is washable, it will go off when you wash the fabric.

### RANGEELA HOLI KE RANG

**Q. What is the unique selling proposition of Rangeela Holi Ke Rang ?**

Ans The unique selling proposition of Rangeela Holi Ke Rang is that these colours are Non-Toxic and safe and Pidilite is the pioneer for manufacturing them since last 17 years.

**Q. Does Rangeela Holi ke Rang have fragrance ?**

Ans Yes, Rangeela Holi ke Rang has pleasant fragrance.

**Q. What are the benefits of using Rangeela Holi ke Rang ?**

Ans Yes, Rangeela Holi ke Rang are specially formulated ready to use fine powder colours which feels smooth, when applied on skin. They are washable, easy to remove from skin, hair and fabrics. They are safe on skin and eyes.

**Q. Which shades are available in Rangeela Holi ke Rang ?**

Ans Rangeela Holi ke Rang are available in 4 fluorescent shades which are as follows - Floro Pink, Floro Yellow, Floro Orange and Floro Green. These actual shades are visible from the window in the carton.

**Q. What is the size of Rangeela Holi ke Rang Pack ?**

Ans The size of Rangeela Holi ke Rang Pack is 300 g. It contains 4 shades. Each shade is packed in a pouch of 75 g. (300 g = 4 shades x 75 g pouch each).

## F.A.Q.S

### RANGEELA TEMPERA COLOURS

**Q. What surfaces can they be used on ?**

Ans Paper & Thermocole.

**Q. What are tempera colours ?**

Ans Tempera colours are unique ready to use colours. Tempera colours give dual effect : Opaque and Transparent.

**Q. How do you achieve opaque and transparent effects ?**

Ans For opaque effect use the colours straight from the bottle and add water for transparency.

**Q. What other benefits do these colours offer ?**

Ans These colours are - Economical, Washable, Bright shades, Safe & Non-Toxic.

### RANGEELA CREATIVE CLAY

**Q. What is the difference between Rangeela Creative Clay and Rangeela Moulding Dough ?**

Rangeela Moulding Dough	Rangeela Creative Clay
Made of organic flour and water	Made of Clay, Oil and Wax
Dries if kept outside for few days	Never dries, Never hardens
For children below 4 years	For children above 4 yrs
Very soft to mould, that's why used by small children	Tough to mould, that's why used by little older children

**Q. How many SKUs are available in Rangeela Creative Clay ?**

Ans a. Dino Pack - 60gm - 5 shades, 1 dino mould  
b. Fruit Pack - 60gm - 5 shades, 1 fruit mould  
c. Marine Life - 100gm - 8 shades, 4 marine moulds  
d. I love animals - 165gm - 12 colours, 4 animal moulds, 1 roller

**Q. What is unique about Rangeela Creative Clay vs competitors ?**

Ans a. Every pack has a different concept for the kids to learn about. Accordingly, the story behind is also customised in each pack.  
b. Creative clay has the most attractive Packaging and Colours vs competitors - as per customers liking. Also, our clay is Branded with Fevcreate.com, which has many videos of usage of clay for parents and children.

### RANGEELA MOULDING DOUGH

**Q. Is Rangeela Moulding Dough safe to use by children ?**

Ans Rangeela Moulding Dough is Non-toxic and conforms to European Standards (CE certified) & hence it is safe to use by children.

**Q. Which students use Rangeela Moulding Dough?**

Ans Rangeela Moulding Dough is an ideal educational toy for small kids, used by preschools & primary school students.

**Q. What is the advantage of using Rangeela Moulding Dough in preschools & primary schools ?**

Ans The advantages of using Rangeela Moulding Dough in pre-schools & primary schools are as mentioned below:  
(1) Develops fine motor skills of kids (using the small muscles in the fingers, hands & forearms)  
(2) Enables children to develop concepts of form & detail  
(3) Excellent for developing colour concepts  
(4) Develops Imagination, Creativity & Hand-eye coordination

**Q. How many SKUs are available in Rangeela Moulding Dough ?**

Ans There are 3 SKUs available in Rangeela Moulding Dough.  
(1) 375 g Kit - 5 shades x 75 g each (+ 4 Moulding Tools)  
(2) 200 g Kit - 8 shades x 25 g each (+ 4 Moulding Tools)  
(3) 150 g - Bucket Pack - 6 shades x 25 g each (+ 4 Moulding Tools)

## F.A.Q.S

**Q. Name the 5 shades available in the Rangeela Moulding Dough - 375g Kit ?**

Ans The 5 shades in 375g kit are Red, Blue, Yellow, Green & Floro Orange.

**Q. Name the 8 shades available in the Rangeela Moulding Dough - 200g Kit ?**

Ans The 8 shades in 200g kit are Red, Blue, Yellow, Green, Violet, White, Floro Orange & Floro Pink.

**Q. Name the 6 shades available in the Rangeela Moulding Dough - Bucket Pack - 150 g ?**

Ans The 6 shades in Bucket Pack are Red, Blue, Yellow, Green, Floro Orange & Floro Pink.

**Q. Name the 2 Fluorescent shades that we offer in Rangeela Moulding Dough ?**

Ans Floro Orange & Floro Pink are the 2 Fluorescent shades that we offer in Rangeela Moulding Dough?

**Q. Do all the SKUs of Rangeela Moulding Dough contains 4 Moulding Tools ?**

Ans Yes. All the 3 SKUs of Rangeela Moulding Dough contains 4 Moulding Tools.

**Q. What is the benefit of Rangeela Moulding Dough-Bucket Pack ?**

Ans The Bucket Pack has tamper proof locking mechanism & reusable bucket to store & play.

**Q. Do Rangeela Moulding Dough dry ?**

Ans Rangeela Moulding Dough needs to be stored by repacking it into the airtight containers after use. It does not dry, if repacked into airtight containers within 24 hours of use. The finished article made from Rangeela Moulding Dough starts to harden after 72 hours and becomes hard after a week.

**Q. Can Rangeela Moulding Dough regain its normal form once it starts hardening ?**

Ans If Rangeela Moulding Dough starts hardening, you can add 2 drops of water within the first 24 hours and it will regain its normal form.

**Q. Can we intermix 2 dough colours together ?**

Ans Yes. We can intermix 2 dough colours to develop a third shade. Examples as mentioned below:

(1) Red+Yellow = Orange

(2) Blue+Red = Violet

(3) Green+Red = Brown

### FEVICOL MR - WHITE ADHESIVE & FEVICOL EAZY

**Q. What is Fevicol MR ?**

Ans Fevicol MR is a synthetic white adhesive whose strong bond helps stick variety of substrates. Versatile applications that works for substrates like papers, cardboards, plastic and metal accessories used in School Crafts & Projects and for complex Handicraft works where materials like jute, terracotta, clay and wood are used.

**Q. What are the advantages of Fevicol MR ?**

Ans Stronger bond, Premium quality, non-toxicity, non-staining & ready to use.

**Q. Who are the main users of Fevicol MR ?**

Ans Fevicol MR is used by students, housewives, craftsmen, artists etc. Children/students mainly use small packs up to 50g. In nursery schools, the larger packs (500 g, 1 kg) are also used, wherein the teachers distribute adhesive to students.

**Q. Who are the main users of Fevicol EAZY Glue ?**

Ans Fevicol EAZY Glue is used by students. Children/students mainly use

## F.A.Q.S

small packs upto 50g.

**Q. What is the difference between Fevicol MR, Fevicol EAZY & Fevicol SH ?**

Ans There is no difference between Fevicol MR & Kids Glue except for the pack design & the target segment. Fevicol MR is formulated for Crafts whereas, Fevicol SH is formulated for Carpentry.

**Q. Is Fevicol MR safe for children ?**

Ans Yes, Fevicol MR/Kids Glue is non-toxic & non-staining adhesive. It conforms to European Standards EN-71 norms, which makes it completely safe for children above 3 years of age.

### FEVISTIK - SUPER GLESTICK

**Q. What is Fevistik ?**

Ans Fevistik is a rotary gluestick which makes sticking papers a convenient and mess free experience.

**Q. Who is Fevistik's target segment ?**

Ans Used by students – school going and college, households and offices

**Q. Why does Fevistik give poor bonding on stamps and pre-gummed envelopes ?**

Ans Fevistik is ideal for paper to paper bonding. However, with a pre-gummed paper surface, fevistik glue cannot make contacts with the paper substrate due to the layer of gum. Hence, the bonding is poor in case of stamps & pre-gummed envelopes.

### FEVISTIK KIDS

**Q. What is Fevistik Kids**

Ans Fevistik Kids is a new and exciting variant targeted towards Kids

in the age group 5-14. It has unique features specially designed for kids.

**Q. What are the Product Features?**

Ans Coloured gluestick which gives colour on application - Kids can easily see where they are applying the glue • Triangular shape - For kids to hold easily • 2 attractive colours - Blue and Purple • The glue colour magically disappears on drying.

### FEVIGUM - SYNTHETIC GUM

**Q. What is Fevigum ?**

Ans Fevigum is a synthetic paper gum.

**Q. Who is Fevigum's target segment ?**

Ans Fevigum's target audiences are children. It is also used in households, schools & offices for sticking paper to paper.

**Q. Is Fevigum safe for children ?**

Ans Yes, Fevigum is non-toxic & safe for children. Fevigum conforms to European Standards EN-71 norms, which makes it completely safe for children above 3 years of age.

### FEVICOL A+

**Q. What is A+ ?**

Ans A versatile glue for all crafting projects.

**Q. What are the Advantages of A+ ?**

Ans (1) It has stronger bond that works on multiple craft surfaces like paper, wood, foam, felt, mount-board, glass, jute etc.  
(2) It sticks faster due to quicker drying time  
(3) Has a better grab time

## F.A.Q.S

(4) Is more viscous than Fevicol MR – Hence also suitable for vertical application

**Q. Who is the target segment ?**

Ans Students School to College who use adhesives for school projects, model work and recreational activity AND Hobbyists who craft frequently as a recreational activity or do a lot of home décor & repair.

**Q. What is different between MR & A+ ?**

Ans A+ also works in vertical applications and for spot applications with materials needing a stronger bond e.g. Stones, Wooden accessories, Bottle Covers etc Its unique Upside-down pack keeps the glue near nozzle; hence it doesn't dry + allows for quicker dispensing.

### PRIME EEZYTEAR TAPES

**Q. Is Prime Eezytear Clear Tape as strong as any other tape ?**

Ans Prime Eezytear Clear Tape is as strong as any other tape and it gives added benefit of easy to tear with hands. No scissors, no cutter required. It is safe for children.

**Q. What is the size (length & height) of Prime Eezytear Tape ?**

Ans The height of Prime Eezytear Tape is 12mm (millimetre) & length is 8m (metres). Hence it is called as 12mm x 8m.

**Q. How many tapes are there in a jar pack ?**

Ans There are 75 Prime Eezytear Tapes in a jar pack.

### FEVICOL GLUE DROPS

**Q. What are Fevicol Glue Drops ?**

Ans Fevicol Glue Drops are non-messy, easy to use, multipurpose, strong glue drops. They bond instantly to many materials, hence, no drying time

is required. They are double-sided adhesive drops. They are ideal for decorating events & objects, school projects, crafting, scrapbooking, card making, gift wrapping, display & many other commercial uses.

**Q. Where can we use Fevicol Glue Drops ?**

Ans Fevicol Glue Drops are used at homes, offices, schools, colleges, retail stores & departmental stores etc.

**Q. On which surfaces can Fevicol Glue Drops be used ?**

Ans Fevicol Glue Drops can be used on paper, wood, fabric, terracotta, metal, leather, glass, plastic & many other surfaces. For best results, we recommend a trial or pre-testing on surfaces / articles before using.

**Q. Can Fevicol Glue Drops be used by children ?**

Ans Fevicol Glue Drops are not recommended for children below 3 years.

**Q. Do we stick Fevicol Glue Drops with fingers ?**

Ans Absolutely not. Fevicol Glue Drops are not to be touched or applied directly with fingers.

**Q. Who are the users of Fevicol Glue Drops ?**

Ans Fevicol Glue Drops are used by School Art & Craft Teachers, Students, Hobby Classes, Handicraft Professionals and Event Decorators.

**Q. Give few examples of uses of Fevicol Glue Drops ?**

Ans Fevicol Glue Drops are used in making scrapbooks, greeting cards, paper crafts (such as quilling, newspaper weaving, etc.), fridge magnets, create 3D school projects, to stick dried flowers, stick balloons in birthday party decorations, etc.

**Q. How much weight will each drop carry ?**

Ans It is suggested that one 1 single Glue Drop is able to carry a weight

## F.A.Q.S

of 4 grams, but the application of the same needs to be evaluated & then used.

### **Q. How do we use Fevicol Glue Drops ?**

Ans Ensure surfaces are clean & dry  
(1) Tear off one or more Fevicol Glue Drops from the perforated sheet.  
(Note : Glue Drops are placed between two sheets of paper)  
(2) Open any one sheet to uncover the Glue Drop.  
(3) Stick Glue Drop on the article, press on the drop from top sheet to fix. Peel back the sheet & stick article on the desired surface.

### **Q. How do we store Fevicol Glue Drops after use ?**

Ans Store Fevicol Glue Drops in the pouch when not in use.

### **Q. What are the benefits of using Fevicol Glue Drops versus Hot Glue Guns ?**

Ans Fevicol Glue Drops bonds instantly. No drying time is required. They are non-messy, safer than hot glue guns & handy for all your projects. Hot Glue Guns are not recommended to be used by children as they are messy and may cause burns. Melted glue from hot glue guns needs little time to set. Also, as it melts, you have to hold the article in place.

### **Q. Where can we get more information about Fevicol Glue Drops projects ?**

Ans Please log on to [www.hobbyideas.in](http://www.hobbyideas.in) for project ideas & inspirations.

## **FEVICRYL ACRYLIC COLOURS - FOR MULTIPLE SURFACES**

### **Q. How to prepare the cloth before applying colours ?**

Ans First soak the cloth in water overnight and wash it thoroughly to remove starch. Let it dry & then iron the fabric.

### **Q. How to ensure the colours remain permanently on the fabric and not wash off ?**

Ans After painting the fabric let it dry for 24 hours & iron the painted fabric on reverse. The colours will now fasten on to the fabric and remain washproof.

### **Q. When to wash the painted fabric ?**

Ans The painted fabric should be washed after drying for 24 hrs and then ironing the fabric.

## **FEVICRYL DESIGN STENCILS**

### **Q. How do we use the Design Stencils ?**

Ans Place/fix the Design Stencil on the surface with the help of cellophane tape (Prime Eezy Tape). The colours are applied either by using a piece of sponge or a painting brush to achieve the effect of flat painting. Secondly, to get a spray kind of effect, the colours are sprayed by using a toothbrush. This is the easiest way, even a non-artist can start learning to paint on fabric using the Stencils & Acrylic Colours.

### **Q. What articles can be painted using Design Stencils ?**

Ans There is no limit to painting - using these different Design Stencils & Acrylic Colours. One can paint bedsheets, pillow/cushion covers, TV covers, sofa covers, curtains, salwar kameez, dupattas, sarees, jeans, tops, dresses for children etc.

## **FEVICRYL 3D OUTLINER**

### **Q. Should the fabric be washed before painting ?**

Ans Yes, remove starch from cotton fabrics before using 3D Outliners on it.

### **Q. What is the use of 3D Outliner ?**

Ans With 3D Outliner, one can create raised patterns to highlight flat designs painted on fabric. It can also be used independently to make different fabric patterns.

## F.A.Q.S

**Q. What are the other Surfaces on which 3D Outliner can be used ?**

Ans Besides fabric, 3D outliner can be used on wood, earthen ware, canvas, leather, stone, Thermocole & metal.

**Q. How to make the 3D Outliner wash proof ?**

Ans Let the outlined fabric dry for 24 hours. Iron on reverse after 72 hours. Wash after 6 days. Don't scrub.

### FEVICRYL FABRIC GLUE

**Q. Does fabric glue replace all forms of stitching ?**

Ans Fabric glue replaces many forms of stitching like sequin work, embroidery patches, appliques, beadwork, cordwork, glitter dust, mirror work and other embellishments. Cloth to cloth applications are also possible.

**Q. What is method of using fabric glue ?**

Ans Spread a thin coat of glue on the applique. Place the applique on the fabric, let it set for 10 min. Press the applique and the fabric together using little pressure for 10 sec. Allow it to dry for 24 hours before use.

**Q. Can the finished fabric be worn and washed immediately ?**

Ans No. After the fabric has dried for 24 hours, it can be worn/used. However it can be washed only after 7 days (gentle machine wash).

**Q. Does the glue leave stain after drying ?**

Ans No. Staining does not occur on most of the fabrics. However care has to be taken while applying glue on thin fabrics such as georgette, silk etc. Also apply glue only on the specific area of the decorative object.

### FEVICRYL MODGE PODGE

**Q. How this is different from any other glue ?**

Ans The ingredients in Mod Podge are not the same as typical craft glue. Special ingredients are added for enhancing the durability thereby making them suitable for long lasting projects.

**Q. How many coats do I apply ?**

Ans You can apply 2 or more coats depending on the effect you are looking for. The more the number of coats are, the softer the effect is.

**Q. On Which surfaces Modge Podge can be used and on which surface it should not be used ?**

Ans Fevicyl Mod Podge is uniquely formulated in such a way that it can be used on MDF, Wood, Glass, Metal, Fabric etc one can avoid using it on Ceramics, Plastics and other products which comes in contact with water.

**Q. Can I decoupage on wall using Fevicyl Modge Podge ?**

Ans Decoupage directly on walls is not recommended as the wall surface differs.

**Q. Any specific paper that needs to be used for decoupage while using Fevicyl Modge Podge ?**

Ans Recommended papers are decoupage tissues, decoupage papers, Newspaper cut-outs, Rice paper, magazine paper, packing paper, scrapbook paper and more.

**Q. How can I eliminate/minimize brush stroke ?**

Ans Try applying decoupage glue with a flat brush and soft hand. Apply glue more than 2 times. Secondly use a sponge or a sponge applicator to apply decoupage glue to minimize brush strokes.

**Q. What type of brush should I use to apply Fevicyl Modge Podge ?**

Ans Flat brushes.

## F.A.Q.S

**Q. Can I use blow dryer on my project to fasten drying time ?**

Ans One can use a blow dryer (Mild/moderate hot setting mode) to speed up the drying process. Drying depends on how thick the application is. Thicker layer of application/deposition will take more time for drying.

**Q. How should I handle Paper edges that I just Modge Podge. How do they get merged with the surface ?**

Ans While doing decoupage tear the edges rather than cutting them. Paste the paper and then use a sharp cutter to cut the extra paper over the edge. Or use sand paper to merge the paper with the surface using glue or paint.

**Q. Can the article/decoupage project done by me be washed ? Is it water proof ?**

Ans Once cured, it can withstand gentle cleaning done with mild soap & water however It's not totally waterproof. It should not come in continuous contact with water. Outdoor exposure, harsh washing/cleaning with sharp objects & scrubbing should be avoided.

**Q. Is it child friendly? Is it food safe ?**

Ans Can I use it on plate/Mugs/Bottles – It is EN 71, Part III Compliant product. Direct contact with food items/eatables should be avoided.

**Q. What is the cure time for Fevicyl Modge Podge ?**

Ans How long do we wait for it to dry - Curing time depends on deposition/thickness of the coating. Normal drying time is 15-20 minutes between the coats.

**Q. My decoupage project done with Fevicyl Modge Podge is tacky/ sticky when dry. What can I do ?**

Ans One can apply a clear matt varnish or spray for the same.

**Q. Will my project turn yellow over a period ?**

Ans Yellowing over a period is not expected if the project is well preserved indoors.

### FEVICRYL GLASS COLOURS - WATER BASED

**Q. How to prepare the surface before applying colour ?**

Ans Wash the glass, clean off any dirt and grime. Wipe it and let it dry completely.

**Q. What is the difference between solvent based and water based glass colours ?**

Ans Solvent based glass colours produce more permanent and transparent effects and should be used by a slightly mature audience i.e. above 12 yrs. Water based glass colours are bright non-toxic glass colours which can be used by children also.

**Q. How to correct mistakes made with outliner ?**

Ans If the outliner is still wet, you can wipe it neatly with a clean cloth, otherwise, wait for the outliner to dry completely and then peel it off from the glass. Once you fill the colours inside the design, you cannot peel off the glass colour outliner.

**Q. How to hold the outliner ?**

Ans The outliner must be held at a 45° angle and there should be no gaps in the outline.

**Q. How to clean the painted surfaces ?**

Ans The painted surfaces can be cleaned with a dry or damp cloth. A sponge can also be used to clean dust and dirt from surfaces. There should be no scrubbing.

**Q. How to lighten the colour ?**

Ans You can lighten the colour by mixing a little transparent glass colour into it.

## F.A.Q.S

**Q. How to clean the brush ?**

Ans Dip the brush in water to clean it.

**Q. On what other surfaces can we apply water based glass colours ?**

Ans Water based glass colours can be applied on glass, mirrors and transparent acrylic sheets.

### FEVICRYL MOULDIT - WHITE M-SEAL FOR ART AND CRAFT

**Q. What is Mouldit ?**

Ans Mouldit is white M-Seal especially designed for the hobbyists to mould & create fabulous shapes & 3 dimensional works of craft.

**Q. How should we mix Mouldit ?**

Ans Cut equal quantities from Mouldit Resin base & Mouldit Hardener mix by rolling between the palms. It will become long by rolling. Now, fold it in half & roll it again. Repeat the process till it is completely white.

**Q. What is the setting time for Mouldit ?**

Ans To learn the art of moulding & sculpting the setting time is 90 minutes which is ideal for amateurs & professional artists.

**Q. Can the finished article be painted ?**

Ans Yes, the finished article can be painted with Fevicyl range of colours especially the Acrylic colours, All surface acrylic colours and Solvent based glass colours.

### FINE ART - PAINTING BRUSHES

**Q. Which 2 types of Fine Art Painting Brushes do we have ?**

Ans Fine Art Brushes are available in 2 types – (1) Round Brushes & (2) Flat Brushes.

**Q. Fine Art Painting Brushes can be used with which types of colours or mediums ?**

Ans Fine Art Brushes are ideal for painting with Acrylic colours, Fabric Colours, Water Colour Cakes & Tubes, Poster Colours & Oil colours.

**Q. What are the important features & benefits of Fine Art Painting Brushes ?**

- Ans
- (1) Fine Art Brushes have golden seamless ferrule.
  - (2) The brushes hair/ bristles are made of taklon synthetic fiber hair. (Taklon is the common name for a synthetic fibre used in artist-quality paint brushes)
  - (3) The handles of Fine Art Brushes are made from season wood to withstand all season
  - (4) Barcode & price printed on each brush.

**Q. Who are the end users for Fine Art Painting Brushes ?**

Ans Fine Art Painting Brushes ideal for school students, fine art college students, hobbyists, fabric painters, fashion designers, fine artists & commercial artists.

**Q. What is S-412 & S-413 ?**

Ans S-412 stands for Round Brushes & S-413 stands for Flat Brushes.

**Q. When do we use Round Brushes ?**

Ans Round Brushes (S-412) are used to paint decorative strokes & detail lines using tip. They are ideal for Elementary & Intermediate Drawing Grade Exams.

**Q. When do we use Flat Brushes ?**

Ans Flat Brushes (S-413) are used to paint large areas by using full width of the brush. They are used to create fine lines using the edge of the flat brush. They are popularly used for one stroke painting.

## F.A.Q.S

**Q. What are the brush numbers available in Round Brushes (S-412) ?**

Ans Round Brushes are available in numbers from 000, 00, 0 & 1 to 12.

**Q. What are the brush numbers available in Flat Brushes (S-413) ?**

Ans Flat Brushes are available in numbers from 1 to 12.

**Q. Fine Art Brushes are available in kits or as individual/single brushes ?**

Ans Both Round & Flat Fine Art Brushes are available in kits as well as individual / single brushes.

**Q. How many brushes are available in the kits ?**

Ans There are 2 types of Kits available in Round & Flat Brushes.  
(1) Kit of 4 brushes (2) Kit of 7 Brushes.

**Q. What do TR-4, TR-7, TSF-4 & TSF-7 means ?**

Ans In both brushes, T stands for Taklon meaning synthetic fibers.  
(1) TR-4 & TR-7 are kits of round brushes. R stands for round brushes.  
TR-4 means kit of 4 round brushes & TR-7 means kit of 7 round brushes  
(2) TSF-4 & TSF-7 are kits of flat brushes. F stands for flat brushes.  
TSF-4 means kit of 4 flat brushes & TSF-7 means kit of 7 flat brushes. In TSF, S stands for synthetic fiber.

**Q. Mention the 2 types of Kits available in Round Brushes (S-412) ?**

Ans Kits of Round brushes (S-412) - (1) TR-4 (S-412) Sizes: 0, 2, 4, 6 (2) TR-7 (S-412) Sizes: 0, 2, 4, 6, 8, 10, 12.

**Q. Mention the 2 types of Kits available in Flat Brushes (S-413) ?**

Ans Kits of Flat brushes (S-413) - (1) TSF-4 (S-413) Sizes: 1, 2, 4, 6 (2) TSF-7 (S-413) Sizes: 1, 2, 4, 6, 8, 10, 12.

**Q. How should we wash the brushes after using with Acrylic Colours ?**

Ans After using with acrylic colours, we should wash the brush gently with mild liquid soap & lukewarm water. Rinse thoroughly.

**Q. How should we wash the brushes after using with Oil Colours ?**

Ans After using with oil colours, we should clean the brush with turpentine or thinner. Wash it gently with mild liquid soap & lukewarm water. Rinse thoroughly.

**Q. How should we care for Fine Art Brushes ?**

Ans Fine Art Brushes should be cleaned as soon as you finish painting. We should not allow colour to dry on the brush & not leave the brush hair (or brush tip) submerged in water bowl, as the hair will bent. After washing & rinsing thoroughly, reshape brush hair using fingers.

**Q. How should we dry & store Fine Art Brushes ?**

Ans Drying - We should keep the brushes in horizontal position to dry. Storing - Store brushes in cylindrical container to protect brush tips from bending.

### FINE ART - CANVAS

**Q. Name the 4 different types of Fine Art Canvas available ?**

Ans The 4 different types of Fine Art Canvas available are as follows:  
(1) Canvas Rolls (2) Stretched Canvas (3) Canvas Boards & (4) Canvas Pads.

**Q. What are the important features & benefits of Fine Art Canvas ?**

Ans Fine Art Canvas is made of 100% Cotton Canvas, with double acrylic titanium priming. It is machine coated (gives even coating), does not crack, has consistent quality. Colour or oil does not percolate to the back of the canvas.

## F.A.Q.S

**Q. Which colours can be used for painting on Fine Art Canvas ?**

Ans Fine Art Canvas are ideal for Acrylic & Oil Colour Paintings.

**Q. What are the different widths of Canvas Rolls ?**

Ans Canvas Rolls are available in 8 different widths in inches. The widths (inches) are as follows : 28, 36, 42, 48, 52, 60, 72 & 84.

**Q. What is the length of each Canvas Roll ?**

Ans All Canvas rolls are available in length of 5 metres only & have different widths as mentioned above.

**Q. What do we mean by Stretched Canvas ?**

Ans Stretched Canvas is a variant of canvas in which the canvas cloth is stretched across a soft pine thick wooden frame & the canvas cloth is stapled at the back of the wooden frame. Stretched Canvas can be hung on the wall with or without framing.

**Q. What are Canvas Boards made of ?**

Ans Canvas Boards are made of agro based particle board.

**Q. How are Stretched Canvas & Canvas Boards packed ?**

Ans Stretched Canvas & Canvas Boards are individually shrink wrapped to prevent deterioration by dust.

**Q. What is the Shipping Configuration of Stretched Canvas, Canvas Boards & Canvas Pads ?**

Ans Shipping Configuration :  
(1) There are 5 Stretched Canvas in one Shipper.  
(2) There are 10 Canvas Boards in one shipper.  
(3) There are 10 Canvas Pads in one Shipper.

**Q. What are Canvas Pads ?**

Ans Canvas pads are made of canvas sheets, where individual canvas

sheets can be used as and when required by the Artists.

**Q. How many sizes are available in Canvas Pads ?**

Ans There are 5 sizes available in Canvas Pads.

**Q. How many canvas sheets are there in each Canvas Pad ?**

Ans Each Canvas Pad contains 10 canvas sheets.

**Q. What is the use of Canvas Pads ?**

Ans Canvas Pads are used for sketching & painting. The Canvas Sheets from the pads are also used for different arts, crafts and hobbies.

### FABRIC CARE - RANIPAL FABRIC WHITENER - WHITENS & BRIGHTENS

**Q. Is Ranipal Powder a household product or an industrial product ?**

Ans Ranipal Powder is both - a household product used by many housewives at home. It is also an industrial product as it is used in laundries as well as in many textile industries for whitening & brightening white garments or fabrics.

**Q. How many SKUs are available in Ranipal Powder ?**

Ans Ranipal Powder is available in 3 SKUs / Sizes – 25 g, 75 g & 240 g.

**Q. How does Ranipal Powder look inside the container, once the foil seal is opened ?**

Ans Once the foil seal of the container is opened, we find that Ranipal powder is a light pastel green coloured powder. But, when it is put in water, it dissolves and the water turns light bluish in colour.

**Q. What is the use of Ranipal Powder in modern days when so many popular detergents with brightening agents are available in the market ?**

Ans Ranipal Powder is used for whitening & brightening of white cotton

## F.A.Q.S

garments. In modern days, the main purpose of a detergent is to clean the garments which it does. Whereas, the main function of Ranipal Powder is to add dazzling whiteness and brightness to the cleaned white garments.

**Q. How is Ranipal Powder different from Liquid Blue or Blue Powder available in the market ?**

Ans Ranipal Powder penetrates inside the fabric, removes the yellowness from the white garment & imparts dazzling whiteness as well as brightness to the fabric. Liquid Blue does not remove the yellowness of the fabric, but only masks it by giving a violet / bluish brightness to the fabric.

**Q. What is the process of using Ranipal Powder ?**

Ans Mix 1/2 teaspoon (approx. 2 grams) of Ranipal Powder in 1/2 bucket (6-7 litres) of water. Soak 2 medium sized washed garments only for 10 mins. Squeeze & dry.

**Q. When is Ranipal Powder used in a semi-automatic washing machine ?**

Ans Ranipal Powder is used in the last rinse after washing the garments, before putting them in the dryer. Add Ranipal powder in the washing machine and let it soak for 10 minutes. Drain the water. Now, put the garments in the dryer to squeeze out water & then hang it on the clothesline rope to dry.

**Q. Name some garments for which Ranipal Powder is used ?**

Ans Ranipal Powder is used to whiten & brighten white garments such as doctors coats, nurses uniforms, chemistry lab.coats, cricketers outfits, navy uniforms, school shirts & socks, P.T.Uniforms, chef's coats, white bedsheets and pillows used in hotels and hospitals, dhotis, turbans, kurtas, kurtis, dupattas, salwars, pyjamas, t-shirts, etc.

**Q. Name the target institutes where Ranipal Powder is used ?**

Ans The target institutes for Ranipal powder are laundries, textile industries, hotels, hospitals, sports clubs, schools, general stores, hobby shops (mostly visited by housewives), soap shops and kirana stores.

### FABRIC CARE - PIDILITE STAINOFF - FABRIC STAIN REMOVER

**Q. How many SKUs are there in Pidilite Stainoff ?**

Ans Pidilite Stainoff is available in 2 sizes – 25ml & 50ml.

**Q. Will Pidilite Stainoff harm the fabric texture or weaken the fabric ?**

Ans Pidilite Stainoff does not harm the fabric texture until & unless the fabric is scrubbed in an isolated area for long.

**Q. Can we use Pidilite Stainoff on coloured fabrics ?**

Ans Yes. We can use Pidilite Stainoff on coloured fabric (though fabric should be tested for colour fastness). Pidilite Stainoff has non-bleach formula and hence it does not affect the colour of the fabric. But the dye of certain coloured fabric is not permanent, which might result in colour fading. Hence it is safer to test the colour fastness of the fabric before applying Pidilite Stainoff in an inconspicuous area before application.

**Q. Is Pidilite Stainoff safe for hands ?**

Ans Yes. Pidilite Stainoff is completely safe on hands.

**Q. Will Pidilite Stainoff remove old stains that are months or years old ?**

Ans Pidilite Stainoff gives best & instantaneous results when used on fresh stains within 24 hours.

## F.A.Q.S

**Q. What makes stain removal difficult ?**

Ans Washing & ironing always sets the stains & makes it difficult to remove.

**Q. Name a few stains that can be removed with Pidilite Stainoff ?**

Ans Pidilite Stainoff removes tough stains like Tea, Coffee, Ketchup/Sauces, Paan, Curry, Mud, Gutkha, blood, etc from most fabrics

**Q. How should we open the nozzle of Pidilite Stainoff bottle ?**

Ans Pidilite Stainoff bottle has a tamper proof nozzle. Hence, we need to prick the nozzle, with a pin to open before use.

**Q. How is Pidilite Stainoff used ?**

Ans Wet the stain with water. Apply enough Stainoff directly on fabric & scrub. Leave it to work for 10-15 mins. Scrub again and wash or dry clean as usual. For stubborn stains, repeat the process. The Stainoff non-bleach formula is safe for hands & fabrics.

**Q. Who uses Pidilite Stainoff ?**

Ans Pidilite Stainoff is used by housewives & laundry workers to remove stains while laundering garments. It is also used in garment export houses to remove stains from manufactured garments.
